Pikesville, MD 21208

Dear Matt,

ErgoScience works with literally thousands of clinics worldwide. And our experience has taught us that there are clinicians and then there are **excellent clinicians**. There are clinics and then there are **excellent clinics**. When we asked ErgoScience associates and ErgoScience employer and insurance clients to identify the top clinics with regard to responsiveness and quality of performance...guess who they picked? YOUR CLINIC was identified among the top 20 ErgoScience providers out of the thousands we work with.

We value your performance and our relationship with you and your clinic. Partnering with you has been an outstanding experience. Please accept this small token of our appreciation for your hard work and loyalty to ErgoScience, may it help keep you warm during this cold winter.

Warmest Regards,

The ErgoScience Team
