March 24, 2020

REHAB AT WORK Continues To Provide These Services:

- Physical and Occupational Therapy
- Functional Capacity Evaluations
- Work Hardening
- Work Conditioning
- Post Offer Employment Testing

REHAB AT WORK is considered part of the essential services network as established by the U.S. Department of Homeland Security Cybersecurity & Infrastructure Security Agency. We will continue to provide our services to our clients, while adhering to CDC guidelines and following federal, state, and local authorities’ directives.

REHAB AT WORK is concerned with your safety, and the safety of our staff is our highest priority. Currently, there is a multitude of information surrounding COVID-19 (Coronavirus) and recommendations to keep people safe. We believe in measured precaution as described by the Center for Disease Control (CDC) and we would like to reassure you that we are following their recommendations to keep us all safe.

We are taking extra precautions to make sure that your clients can continue to participate safely in their physical therapy and industrial rehabilitation program. These precautions include:

- Screening of all patients and staff for COVID-19 symptoms.
- As per our standard protocol, all staff wash or sanitize their hands between patient visits.
- Hand sanitizer or Hand washing will be required in order to enter the space.
- Exercise equipment is sanitized after every use. Waiting rooms, exercise equipment, and door handles are sanitized every 2 hours by a REHAB AT WORK employee.
- Therapists will no longer shake hands with vendors and/or patients.

We will continue to follow CDC guidelines and keep you updated on recommendations.
